RAIN DEFENDER®

Rain Defender® durable water-repellent finish makes garments rain, mist and snow resistant. Moisture beads up and rolls off to keep you drier and on the job longer. And it's tough, too. Rain Defender® retains 70% strength even after 20 washings.

STORM DEFENDER®

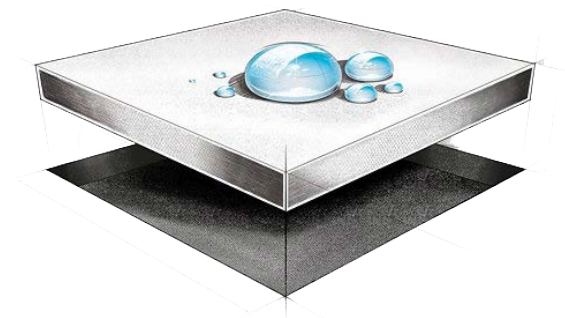

Rain Defender® durable water-repellent finish makes garments rain, mist and snow resistant. Moisture beads up and rolls off to keep you drier and on the job longer. And it's tough, too. Rain Defender® retains 70% strength even after 20 washings.

CARHARTT RAIN DEFENDER®

Sturdy, high performance rainwear is a Carhartt specialty and a necessity for any outdoor worker; it makes the difference between getting the last cord of wood loaded and out of the woods or coming back tomorrow for a longer day. Moisture will bead up and roll off your sweatshirt, jacket, overalls, pants, and more.

Rain Defender® durable water repellent garments are just as functional and comfortable while fishing, hunting, working, or standing on the sidelines at a football game in a driving November rain.

CARHARTT STORM DEFENDER®

Work doesn't stop when it rains; it just gets harder. Lugging rain soaked garments around adds to the misery, but Carhartt's jobsite worthy raingear cuts the discomfort. Staying dry, focused and safer is easier with rainwear featuring Storm Defender® waterproof breathable technology. It's made to keep you completely protected from rain and amazingly comfortable inside.

Storm Defender® stops rain, but lets sweat escape through a breathable membrane. It performs on and off the job, making weekends at the campsite or taking in a ballgame fun like it should to be.
